

ORDER FORM: PREVIEW YOUR PHOTO TO PAINTING

We turn Memories into Masterpieces !

Use this order form if you'd like an Artist to create a digital hand painted portrait based on your favorite photo. The cost for the Preview is \$10. Just send us your photo together with this order form. You can pay the \$10 fee by check or call us with your credit card. We'll return your photo unharmed by mail or with the finished Canvas portrait.

Here's how it works:

Your satisfaction is very important to us. In our Studio we'd prefer to create the artwork first and show you a proof by email before creating the finished Canvas. This way you'll be able to approve the artwork, request any desired changes and decide afterward what the best size Canvas should be. There is a small charge for any art revisions you request after the first draft but until you approve the artwork there is no cost whatsoever. Our goal is to make you happy and let the artwork sell itself. ☺

Send us any photo you wish but for best results we recommend a photo that's in focus, close-up and has 1-3 subjects. Please don't send us an irreplaceable photo though without first making a copy of it.

Want to see what kind of work our Artists can do ? Visit our website and click on the "See Samples" tab. You'll see hundreds of examples and get great ideas for creating your own unique family portrait on Canvas.

NAME YOUR ARTWORK

(this will not show on the finished canvas)

Give your project a unique name to identify it *(Example: Michael's Birthday, Anna's Wedding)*

_____ (_____) _____
DAYTIME TELEPHONE

PERSON PLACING ORDER

YOUR EMAIL ADDRESS – *required for email proof*

CHOOSE A PORTRAIT BACKGROUND

Please select one:

- Keep Background Details from Source Photo
- Replace Background Details with Modeled Brushstrokes

Explanation:

Are the background details important in the photo you're submitting ? If so, check KEEP the background details. We'll include the background details in your painting. If not, choose the REPLACE option and we'll paint brushstrokes in the background like a fine art portrait. See examples at right for explanation.

KEEP the background

Replace background with brush strokes
